## Holiday at the coast

Get into the flow of the beach and the rolling waves in this apartment that is literally across the street from the beach. BeachFlow is a bright apartment with large windows and a balcony.

Taste and enjoy Noordwijk

The living room is homey and with the iconic image of the mermaid of noordwijk on the wall gives a local touch to the apartment. With two sofas and a well-equipped kitchen, the vacation here can be enjoyed comfortably.

One bedroom is available with a double bed. A folding bed is available for a possible third person. The bathroom has a shower, sink and toilet. There is a washing machine in the apartment.

Holiday directly on the beach

BeachFlow is located in an extremely convenient place to vacation, because the beach is across the street. Lovely start with a beach walk in the morning or be the first with your towel on the beach and easily go back to the apartment.

Pleasure everywhere

BeachFlow is therefore the right place for your beach vacation, because here you can enjoy everything the Bulb Region has to offer in every season. Flower corsoos, the cities of Amsterdam, Leiden, Haarlem or The Hague are definitely worth a visit. But more in the mood for something active? A wide choice of beach activities and also the extensive cycling and walking route network gives more than enough choice to enjoy all the beauty of nature
